Sage FAS Links provide built-in integration to other Sage Software products as well as any general ledger or other accounting system.

Easily and conveniently move fixed asset information from your Sage FAS solution into your General Ledger or other accounting system with Sage FAS Links. Just a few simple clicks of the mouse and you can quickly transfer your fixed asset data, ensuring the consistency of the information entered and reducing the risk of data errors. You'll save valuable time because your fixed asset information doesn't have to be re-keyed into another system after a run of depreciation.

Sage Software has developed a number of dedicated links to other Sage products, including Sage MAS 90/200, Sage MAS 500, Sage Timberline Office, Sage Accpac, Sage MIP Fund Accounting, and more – all included at no-charge with your purchase of FAS 100 Asset Accounting or FAS 500 Asset Accounting. Integration also exists for several third-party systems including CCH ProSystem fx Tax, Microsoft Dynamics GP, and Microsoft Dynamics SL. In addition, the Sage FAS Universal Link can deliver fixed asset data to any system capable of importing a standard ASCII file. When you want to effortlessly integrate your Sage FAS fixed asset information with your accounting system, there's no better way than with Sage FAS Links.

From developing innovative products to providing award-winning customer support, Sage Software is dedicated to surpassing your expectations. Sage FAS Links

“Sage FAS and Sage Timberline Office are great together, because there are few limitations to their use. They integrate well, and are also able to communicate key information to and from other software. We frequently recommend Sage FAS and Sage Timberline Office to others, including our subcontractors.”

Edwin Tyroch, Controller
Shallow Ford Construction Company

Ease, convenience and flexibility.

- Sage FAS Links are readily available to any customer and come pre-installed with your Sage FAS fixed asset software solution
